# MY COMPANY

## Why the name CarboLoad?

CarboLoad is a food and beverage stall that stands for “Carbohydrate Loading” or “Carb-loading”, a strategy athletes use to maximize the amount of glycogen in their muscles by eating a carbohydrate-heavy meal a day or night before a big athletic event or competition, specially for prolonged activities like a marathon or cycling where sustained energy is critical.

## What do we offer?

CarboLoad offers both carbohydrate-rich Comfort Food and Celebration Beverages – these are its two main product lines, each with its own curated menu. During concerts, New Years celebrations and Fiestas, however, it only offers its Celebration Beverages line.

# THE PRODUCT LINE

## Celebration Beverages

A selection of light alcoholic drinks designed to elevate casual moments from simple occasions to memorable events.

## Comfort Food

Carbohydrate-rich menu that is delicious and filling, enough to fuel a person's energy needs for an active day be it at work, in the court or out on the road.

## Quick Sweets

CarboLoad's Quick Sweets is a fast fix to a stressful day that will boost your energy for another wind of work or play. This is a line of sweet desserts that soothes stress, calm the nerves and puts you back in the zone.
